IGNITE YOUR NATURE

DOMO

DOME

The minimalist design of the DOME is reminiscent of traditional Italian stone ovens. The oven is made from corten steel, which gives the product a robust appearance and makes it a real eye-catcher in your garden.

FEATURES

Make the tastiest pizzas with our wood-fired stone oven. Bake pizzas and flatbreads with friends and family and enjoy delicious food together. Two pizzas can be cooked in the DOME at once and will be ready in just a few minutes.

The oven's round dome not only gives it a robust look – it also ensures optimal air circulation. To use the oven, first heat the stone by lighting a fire. Next, place the burning wood to the side at the back of the oven. The hot air will rise through the dome to the flue. The heat circulates above your pizza, creating the optimal conditions for cooking. The ceramic pizza stone holds its heat well. The DOME has all the right ingredients for a tasty pizza!

SPECIFICATIONS

- 5-year guarantee.
- Pizza capacity: 1–2
- The pizza stone is made of cordierite.
- Includes flue with flue cap.

KEY POINTS TO NOTE

- Place the DOME on a firm, heat-resistant surface. See our DOME stations, which provide a handy surface on which to place your oven and instantly create extra workspace.
- Includes flue with flue cap.
- When installing the DOME in an enclosed space, use a roof vent.
- Use one wall bracket per metre of flue pipe or use a roof vent.
- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- We do not recommend using corten steel within 2 km of a coastline.
- Rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust on corten steel flaking off.

Maintenance

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.forno.eu for a complete overview of our accessories.

RUST ACCELERATOR

Our Corten Steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website.

Always read the descriptions on the packaging carefully before use.

FORNO

IGNITE YOUR NATURE

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. FORNO offers a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All our products have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from fire tables to exclusive outdoor kitchens and from sturdy fireplaces to timeless wood storage.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
